

Electronic Surtitling Systems

Alto range

The fusion of Art & Technology

OVERVIEW

The ALTO range consist of L.E.D technology based graphic indoor displays.

The 4 millimeters pitch allows medium and large screens size.

ALTO40's screen is best used with SOPRANO's to form a multi-screen set for multi-point surtitling.

SPECIFICATIONS

- two-color based LED screens
- 16000 shades available
- 4 millimeters dot pitch
- ± 160° viewing angle
- Ethernet 100Mbps LAN
- 110-220VAC/50Hz-60Hz operating voltage
- 3mm dot diameter
- 130Cd/m² software adjustable brightness
- Wireless WiFi 802.11g WLAN on demand

BENEFITS

- Perfect legibility
- Ultimate viewing angle & contrast
- No operating noise (fanless)
- Extreme Reliability
- No parasitical reflect on screen
